THE BRAND

BaeNutz is the brainchild of Ms. Preeti Janardhanan, the founder of The Nuttcracker. She is a highly motivated entrepreneur with a remarkable vision to establish her brand worldwide.

With a degree in Industrial Engineering from Lehigh University, a prestigious institution often regarded as one of the hidden Ivy League schools in the USA, she has extensive experience travelling the world, including Africa, to carefully select the ideal source of nuts for processing.

As a mother of two, Ms. Janardhanan firmly believes in providing healthy snacks to her children. Recognizing the impact of the COVID-19 pandemic on our food choices and daily nutrition, she conceived the idea of a brand that values daily nutrition and includes nuts that are rich in essential nutrients such as selenium, magnesium, & antioxidants.

The brand encourages avoiding processed foods that contain added calories and preservatives, opting instead for healthier snack options.

Flavoured Cashew Nuts & Almonds are the best to keep the craving for tasty snack without comprising on your health. At Baenutz we consider this aspect very seriously and have come with zero oil, roasted nuts, with no resin based coating. We avoid binders like Maltodextrin, Xhantum gum, corn syrup, tapioca powder add to the extra calories during the nut intake, inturn making it a hard choice.

We use original ingredients in most flavours to give it the original flavour that makes it come back for more.

GENERAL BENEFITS TAKING NUTS IN YOUR REGULAR DIET
